

Communities Fund
Collaborative Bid 2021

Proposal:

- A joint bid from Binegar and Ashwick Parish Councils.
- Funding up to £30,000.

Project:

- To facilitate walks around the village/parishes, supported by information boards and markers sited along the routes. With starting points at the Parish Churches, routes would lead around and through the parishes. The information boards will be created to show sites of interest and specific sites for flora and fauna facts.
- To build on The Oakhill Trail that was developed by the history group.
- The boards will be produced professionally with drawings and maps.
- There is a need to agree on the routes in Ashwick Parish and the location of the boards - perhaps outside All Saints' Church, the Recreation Ground, The Pound and Ashwick Parish Church.
- Routes would be posted on the village website and funding if available should also go to developing an app.

The Project would promote:

- Physical and mental wellbeing - walking in the countryside
- Encourage social connection
- Cross boundary cooperation
- Accessible participation in the arts and heritage - promoting our village histories.
